

**Name:** Henry Våg

**Pair:**

**Amount of completed tasks:** 8

**Which tasks were left undone or incomplete:** exercise 9

Self-assessment:

Exercises 1-5 and 7 were not challenging. Exercises 6, 8 and 9 were very challenging and the code for exercise 6 is especially messy but it works. The code is better in exercises 8 and 9.

Exercise 8: How to verify names?

Exercise 9: I am not sure if I formatted the outputs properly.

Answers to other than coding tasks here:
